## B

Each night, mother touched my face with her hands and kissed me before saying good night. As a little child, I thought I was the happiest in the world. But I didn't remember when I started feeling uncomfortable. Maybe she was not young. Or maybe she did too much hard housework. One night, I shouted at her, "Don't do that anymore — your hands are too rough!" She didn't say anything. But she stopped saying good night to me as usual.

Years later, I became a mother, and mom was over seventy, but her rough hands still did things for me and my family. I always thought about that night. I began to understand how sad my mother was when I shouted at her. And I began to miss my mother's hands and her good-night kiss. How I wish I hadn't said those words!

On Thanksgiving Eve, when I slept in the bedroom, a hand touched my face and then a kiss. Oh, that was what I had missed for so many years! Catching mom's hand, I told her how sorry I was for "that night". But mom didn't know what I was talking about. She forgot it long ago.

On Thanksgiving Day, I slept with her caring hands.

## 书面测试 (非选择题 共 30 分)

### VI. 阅读理解(二)(共 5 小题, 每小题 2 分, 满分 10 分)

阅读下面短文, 根据短文内容回答问题。

In the new term, students feel like they study much more hours and relax fewer hours. They always say "I'm busy". Maybe this makes them feel they are hard-working! In fact, they usually spend only a little time on study or other important things. Most of the time, they do nothing meaningful. They have to think about where the time is going because it can help them find the lost time. Here are some tips.

**Do the most important things first.** They should try asking "Is it necessary?" and choose the most important things to do first. Sometimes they have to give up(放弃) something.

**Keep away from the Internet.** If they use the Internet five times a day, and for six minutes each time, they spend half an hour every day—that's how long the students should exercise.

**Never lose the interests.** If they study 50 hours a week, and sleep 8 hours a night, they still have 62 hours for anything they like. Make good plans—they can do a lot about their interests after they finish their school work.

Every student has his way to spend time. Choose differently, and have a different life.
