Have you had a headache during the test? Have you ever been so worried about something that you have a headache or even can't sleep at night? If so, then you know what stress is. Stress is what you feel when you are worried about something. This worry in your mind can make your body feel bad. You may feel angry, sad,

scared, or afraid—all of which can give you a stomachache or a headache.

However, there are different kinds of stress: Some kinds of stress are good and others are bad. Good stress might happen when you're called to answer questions in class or when you have to give a speech. This kind of stress can help you to get things better done. For example, you may do a better job on your test if the stress pushes you to prepare better before the test.

On the other hand, bad stress can happen if the stress lasts too long. You may not feel well if your parents are fighting, if a family member is sick, if you're having problems at school, or if anything else makes you unhappy every day. That kind of stress isn't going to help you. And it can actually make you sick.

The best way to fight the stress is to have a balanced life. Make sure you keep your SELF in mind: Sleep, Exercise, Leisure (休闲), and Food. If you get enough sleep and eat properly, and if you exercise and leave time for fun, you'll probably feel less stressed.

阅读下面短文, 简要回答所给问题, 并将答案写在答题卡相应的位置上。

If you live in the United States, the law says you shouldn't be allowed to have a full-time job until you are

16 years old. At 14 or 15, you can work part-time after school or on weekends, and during summer vacation you can work 40 hours each week. Does all that mean that if you are younger than 14, you can't earn your own money? Of course not! Kids who are between the ages of 10 and 13 can earn money by doing lots of things.

Valerie, 11, told us that she made money by cleaning up other people's yards. Lena, 13, makes money by knitting dog sweaters and selling them to her neighbors, and Lisa said she had started taking art classes and showing her work to people. People have asked her to draw pictures for them and they pay her for them. Jasmine, 13, writes articles for different magazines!

Earning is learning. By working to earn your own money, you are learning the skills you will need to succeed in life. These skills can include things like getting along with others, using technology and using your time. Some people think that asking for money is a lot easier than earning it, however, when you make your own money, you don't have to depend on someone else. The five dollars that you earn will probably make you feel a lot better in your hand than the twenty dollars you ask for.
